

## Item 15 Parking review additional background papers

I have received today the consultation for the parking review for Council to consider.

ESCC Highways advised at they thought may be prudent for the Town Council to send letters to the residents of Brook Street and Porters Way. They suggested this as the choices that were put to council previously would not be part of the public consultation, and therefore the residents would not have known the options available.

The office will need approval from full council to send these bulk letters out.

The letters should indicate that they could have a choice and what would they prefer. Like a smaller consultation.

There are also other areas which were not previously resolved on the consultation and these will need to be considered on their merits. Some have been put forward by Highways themselves.

Council will need to resolve

If they wish to send the letters out

Areas Brook Street & Porters Way

What comments they wish to make on the new additional areas.

Areas to be considered for new comment: Gainsborough Lane; Old drive; Southfields.

Colour copies of the document attached.
