<b>12318</b>	<b>Planning Applications</b> <b><a href="#">WD/2018/0449/F</a> – 5 WESTERN AVENUE, POLEGATE BN26 6EP – PROPOSED EXTENSIONS TO FRONT AND REAR ELEVATIONS AND CONVERSION OF OUTBUILDING INTO SELF CONTAINED DWELLING AND ASSOCIATED WORKS.</b>  The application was discussed in detail. It was resolved to submit the following objections and comments Councillors noted that part of the elevation is flat roofed and the side wall of the proposed extension has been moved around 1m inwards and the kitchen door. The first floor is still in councillors' opinion unsuitable as it is very close to neighbouring properties.  The previous applications have already been considered by both PTC as consultees and WDC and have all been refused on grounds of overdevelopment. This application does not mitigate the overlooking, overshadowing and overdevelopment issues.  Living accommodation for the proposed building is still too close to neighbouring properties. Noise would still be an issue and the privacy of the neighbours both sides would be seriously encroached upon in an unsatisfactory way.  The current building as it stands was originally to be used for

**vehicles only and subsequently was only approved for use as a storage facility for a charity. The owner at the time (current) promised that it would be never be converted to a dwelling. The WD/2012/1002/F was misleading as it showed the building within a spacious area when this was not the case, as neighbouring properties are very close. An enormous garage with a high roof was the result.**

**The appearance and elongated shape of the proposed building would not be appropriate for the environment.**

**It is purely designed to be crammed into a small space and this is overdevelopment.**

**A previous application to convert the upper area of the garage into a play space was refused in 2012. With regards to living accommodation, nothing has changed as there remain close neighbouring buildings on either side of what was supposed to be a garage and store only. (For a charity)**

**Councillors have asked that neighbours letters from all previous applications be taken into account, as they have consistently opposed the overdevelopment of the garage.**

**The area is only suitable for vehicular use as per the original approved application in 2005 (WD/2005/3301/F)**

**The committee noted that on the planning history, application WD/2017/1990/F has been listed and was submitted in both December and February.**

**The Committee reiterate that not only is this overdevelopment, but the speed at which applications are being resubmitted is likely to be causing the elderly and disabled neighbours a great deal of stress.**

**The committee asked if there was a time period before a new application can be submitted for what is essentially the same application with minor variances.**

**The committee also asked if there was a possibility of applicant to be asked to submit what was effectively tracked changes (i.e. what has actually changed on an application compared to previous ones?)**

However, one Councillor queried whether a watercourse runs directly under the proposed new build. Two Councillors commented that there is contradictory information regarding drainage – one document states that drainage will be into a pond, and another that the building will be connected to a main sewer. The Councillors also suggested that a full flood risk assessment should be carried out. One Councillor commented that pollution from increased vehicle movements might affect Ashdown Forest.</p> <p><a href="#"><u>WD/2018/0441/F</u></a> – 10 MAPLELEAF GARDENS, POLEGATE BN26 6PD – ERECT PORCH AT FRONT.
