SMOKE FREE POLICY

Purpose

This policy has been developed to protect all employees, service users, customers and visitors from exposure to secondhand smoke and to assist compliance with the Health Act 2006.

Exposure to secondhand smoke, also known as passive smoking, increases the risk of lung cancer, heart disease and other illnesses. Ventilation or separating smokers and non-smokers within the same airspace does not completely stop potentially dangerous exposure.

Policy

It is the policy of Polegate Town Council that all of its workplaces are smoke free and all employees have a right to work in a smoke free environment. The policy shall come into effect on 1 July 2007 and is subject to review as required by the Town Clerk.

Smoking is prohibited throughout the entire workplace with no exceptions. This includes company vehicles. This policy applies to all employees, consultants, contractors, customers or members and visitors.

Implementation

Overall responsibility for policy implementation and review rests with the Town Clerk. All staff are obliged to adhere to and facilitate the implementation of the policy. The Town Clerk shall inform all existing employees, consultants and contractors of the policy and their role in the implementation and monitoring of the policy. Appropriate 'No Smoking' signs will be clearly displayed at the entrances to and within the premises.

Non-Compliance

Those who do not comply with the smoking law may be liable to a fixed penalty fine and possible criminal prosecution.

Help to stop smoking

The NHS offers the following free services to help smokers give up:
