**TOWER MILL PLACE**

As you are aware, funding to build a new health centre at the site is no longer available. In 30 years, Wealden District Council took its first steps towards building council houses again by appointing Churchill Hui as leading housing design consultant architect. The 64 new council houses planned for Forest Row, Crowborough, and Willingdon (Tower Mill Place) will be built to Lifetime Homes principles to respond to the changing needs of future tenants as well as incorporating, wherever possible, sustainable local materials and good levels of energy efficiency.

The seminar and public exhibition was held on the 12<sup>th</sup> March at Trinity Hall, Coppice Avenue. Wealden District Council is intending to submit the planning application to their planning department.

Daniel Shing  
Wealden District Councillor for Polegate South
