11444	Planning Applications WD/2015/1295/F 50 WEST CLOSE, POLEGATE BN26 6EL – ERECTION OF 7 NO. CHALET BUNGALOWS TOGETHER WITH ACCESS ROAD. The Committee discussed the application in detail. A Councillor pointed out that there were no public surface water sewers in the area, which meant that sewage would have to be disposed of via a cess pool with a capacity of 58,000 litres approximately 0.7 metres from the housing. This would require emptying by tanker on a 60 day cycle, using a road that already has access issues for other vehicles (eg dustcarts). A Councillor said that people did not expect cess pits to be used in this day and age. A Councillor said that the smell occasioned when emptying the cess pit would be offensive to local residents and children/staff at the nearby school. A Councillor said they did not object to the development itself but to the access road. Once the new access road has been built, West Close itself will not change but potentially 21 extra vehicles (three per house) will be using the close. Each new house would have space for one or two cars, meaning that any additional cars would have to be parked on the road. A Councillor said they considered this to be over development; the need locally was for social or affordable housing, not four plus bedroomed houses. The Committee resolved to submit objections to the application as follows: Cess pits: There would be limited access for a tanker to empty the cess pits; the offensive smell occasioned when emptying the pits would affect nearby school and residential properties; in the 21st century people expect a 'non rural' house to be connected to a main sewer, not to have a cess pit. Access: Access to the existing houses was already poor; concerns over dust carts, tanker access and egress onto Station Road; the extra three

	<p>properties would generate another 6 – 9 cars, which would be likely to cause egress and parking issues. Each house has room for one car in a garage and one on the driveway.</p> <p>Overdevelopment: Proposed houses not in keeping with existing dwellings; adverse effect on existing residents of West Close; no perceived need for 4+ bedroom houses; there is a greater need for social/affordable housing locally.</p> <p>VOTE all in favour Cllrs Mrs W Alexander, Mrs M Piper, M Falkner, T Bennett, D Watts.</p>
